Tech Skills

Proficient: Javascript, React, Redux, Bootstrap, Material UI, Express, PostgreSQL, Sequelize, Node.js, SQL, Git, Github, HTML, CSS
Knowledgeable: SQLite, Webpack, Python, Flask, C, Heroku

Projects

agenda • Full-Stack Developer • your-agenda.herokuapp.com   *February 2021*

A minimalist project board app for personal and business needs.
Stack: React, Redux, PostgreSQL, Express, Sequelize, Material UI, Socket.io
- Created a responsive design for all pages with Material UI and custom CSS.
- Designed the user home page and implemented drag-and-drop for easy-to-use project boards.
- Organized React components to create a well-structured front end.

On The Run • Solo Full-Stack Developer • ontherun.herokuapp.com   *January 2021*

A user-friendly lifetime data visualization app for runners.
Stack: React, Redux, React Google Charts
- Built the single-page application with React, Redux, and React Google Charts.
- Stored thousands of data points in data structures for access in constant time.
- Designed a responsive and elegant site with Bootstrap and custom CSS.

Tranquility • Full-Stack Developer • tranquility-candles.herokuapp.com   *January 2021*

A mock e-commerce store that sells candles.
Stack: React, Redux, PostgreSQL, Express, Sequelize, Bootstrap
- Structured the login and signup forms from database to interface so that users could create an account.
- Designed the layout of all pages with Bootstrap and ensured that they were responsive.
- Created hundreds of seed data points to mimic a realistic e-commerce database.

Work Experience

Team Lead Brand Ambassador • Uptime Energy   *June 2019 - March 2020*

- Engaged prospective customers during events, contributing to new leads for the sales department
- Acted as an intermediary between the brand ambassador team and the field marketing manager
- Organized setup and teardown within 5-6 events weekly
- Conducted weekly inventory within Google Sheets to maintain full stock of the product
- Transported up to 60 cases/day to multiple locations throughout New York City

Principal Production Cast Singer • Norwegian Cruise Lines   *October 2018 - March 2019*

- Performed up to 7 main-stage shows per week in addition to daily rehearsals
- Created, choreographed, and performed in a cabaret show for each cruise, including 5 performers
- Provided guests with an engaging experience offstage through live Q&As and backstage tours
- Responded calmly to problems onstage and backstage to maintain the integrity of each performance

Education

Grace Hopper Program at Fullstack Academy • NYC   *October 2020 - February 2021*
17 week immersive centered on full-stack Javascript web development

Point Park University • Pittsburgh, PA   *September 2014 - April 2018*
BFA Musical Theatre
